About Us!

Solace Energy (pvt) Limited is a fast-growing Solar Solutions provider in residential, commercial, industrial and agricultural segments. Along with high quality & efficient solar solutions, we are providing the best solutions for LEDs, Electrical Distribution Boards and LV circuit breakers as part of *AW Services & Solutions Group*. The aim of *Solace Energy* is to drive the energy transformation by integrating the latest & renowned world-class products to develop state-of-the-art solutions for better and greener Pakistan. Through a team of highly qualified professionals, we consider customer priorities to build our solutions with safety and reliability and to provide the best after sales services since the center point of all our strategies remains the customer satisfaction.

Reliable and efficient energy solutions are provided by integrating the high-quality brands from across the world.
